

## Cat Toy Scavenger Hunt

Not all cat toys come from a store. There are many items in your home that can entertain a cat or kitten for hours! Using the list below, look for some of the items in your home that can be used to make a cat toy. Once you've gathered all the items, assemble a toy of your own creation. Be sure to supervise your cat while they play with the new toy. Then write step-by-step instructions that tell us how to make and use the toy. You may also include drawings. Have fun!
